Advanced Management Programme for Railway Managers on

"Logistics and Supply Chain Management"

(22 Aug. to 26 Aug. 2022)

Programme Director: Mrs. Richa Sharma (Prof. Commercial Management)

Programme Overview: Logistics refers to designing and managing of a system in order to control the flow of material. Supply Chain is a larger concept to include manufacturer, supplier, transporter, warehouses, retailers, and customers. Transportation is an essential and major sub-function of logistics and supply chain management.

Programme Coverage: This training program will cover almost all important aspects of Logistics such as Supply Chain Basics, National Logistics Policy and Action Plan, National Grid of Logistics Parks, Container Logistics, Coal Logistics, POL logistics and Supply Chain Management, Cement Logistics, Inland waterways, Maritime Transportation, Operations Management, Transport Economics, CWC and Warehousing Management.
