Quadrant 1:

- Product offers in categories under this group will be solely offered by GeM validated OEMs.

Quadrant 2:

- OEMs shall operate Marketplace subject to providing its complete list of Open market authorized sellers along with formal commitment to list and maintain all appropriate and current Product Catalogue for pairing by its Resellers.

Category Driven Catalogue Management System

In order to ensure that the Buyers get genuine products at the most reasonable prices GeM has classified its Catalogue in four Quadrants

Quadrant 3:

- Product offers in categories under this group can be from OEMs and/or their Authorized Resellers concurrently.
- In case OEM has not created Product Catalogue, Authorized Resellers of OEMs are also permitted to do the same

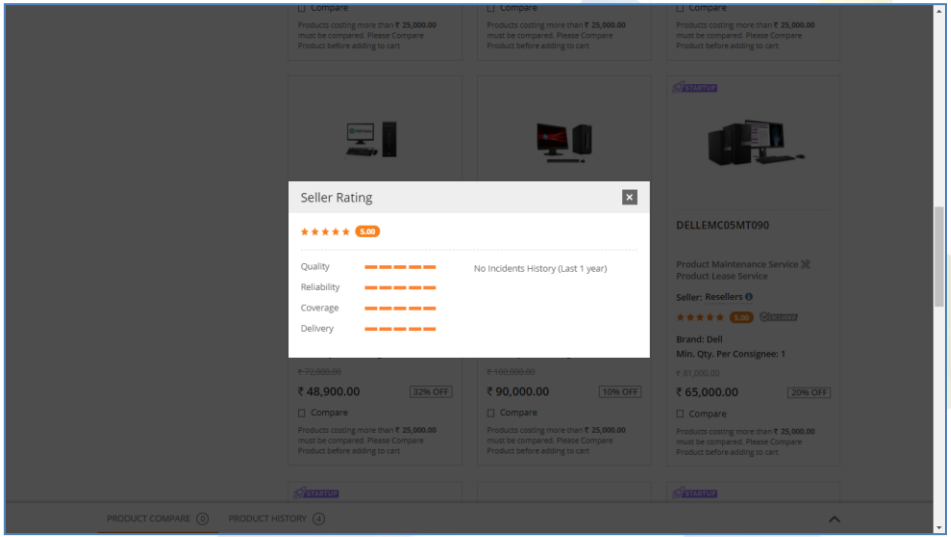

Quadrant 4:

- Product and/or Offers in categories under this group can be from OEMs and/or Resellers.
- In case OEM has created Product Catalogue, then their catalogue will be used exclusively for pairing by all Resellers without any requirement of further endorsement of any kind by the OEM

Ratings for Sellers

Seller Rating

- A strong vendor rating system will reward good performance of sellers by giving them opportunity for more business
- Sellers will also be able to improve upon their ratings by focusing on specific areas
- Fake/Inactive sellers will be weeded out, hence ensuring only genuine sellers get to do business with government.
- Parameters for the Seller Rating :
  1. Coverage
  2. Timely Delivery
  3. Quality of Order Fulfillment
  4. Reliability

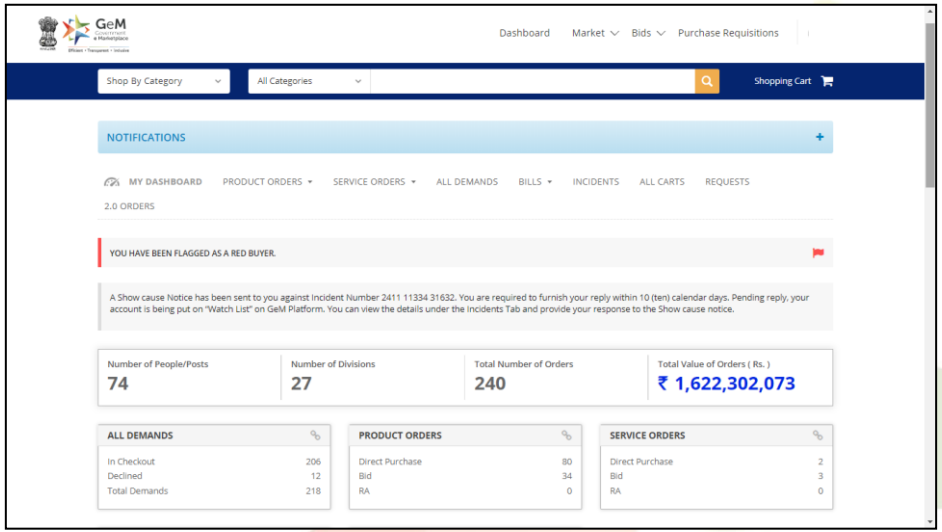

Classification of Buyers

Buyer Flagging

Individual Buyers are classified as Red, Green and Orange as per their payment due status Criteria for such classification would be –

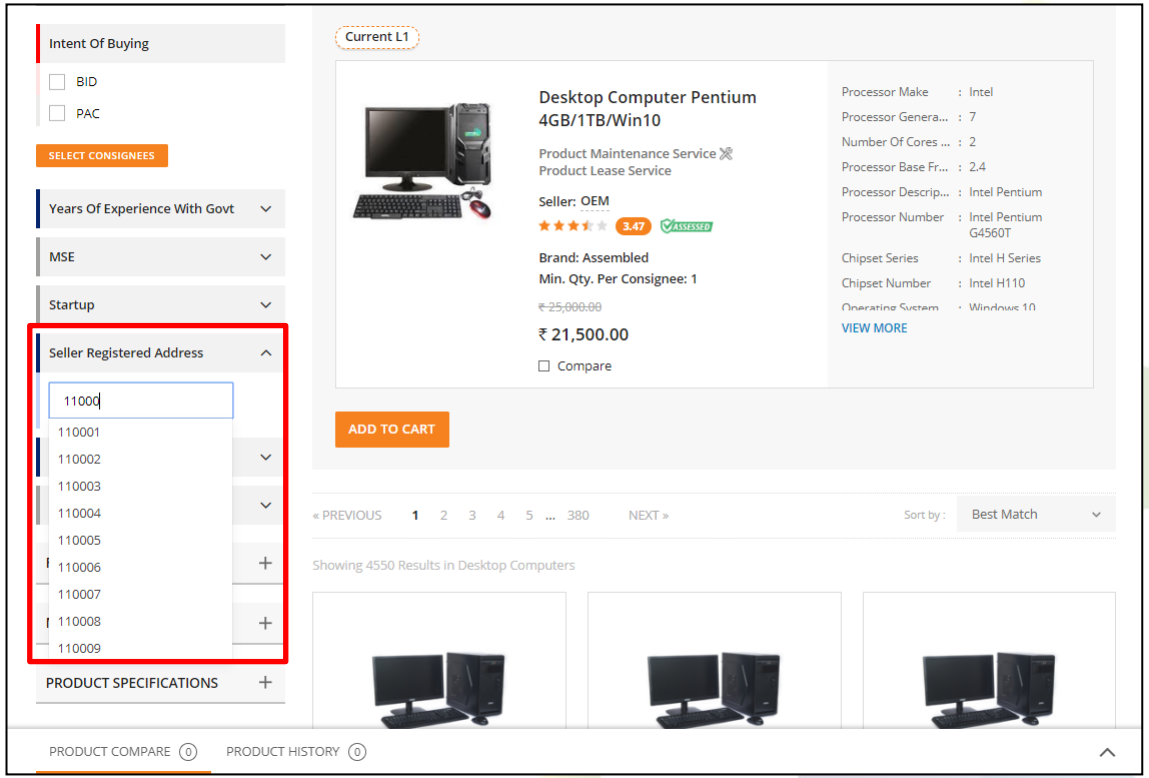

- ✓ **Red** – more than 30 payments due for more than 70 days post CRAC
- ✓ **Orange** – More than 20 payments due for more than 70 days post CRAC
- ✓ **Green** – remaining

This feature is introduced to help the Sellers make informed decisions. Sellers will not be penalized for rejecting orders from “Red” buyers

Location based Search

- To reduce the delivery period and improve the order processing, products can be searched by seller's Location.
- Location can be searched by “Pincode”, “District” and “State”. The option is available under Administrative filter section on category pages.
- Upto INR 2.5 lakh location based filters are applicable.

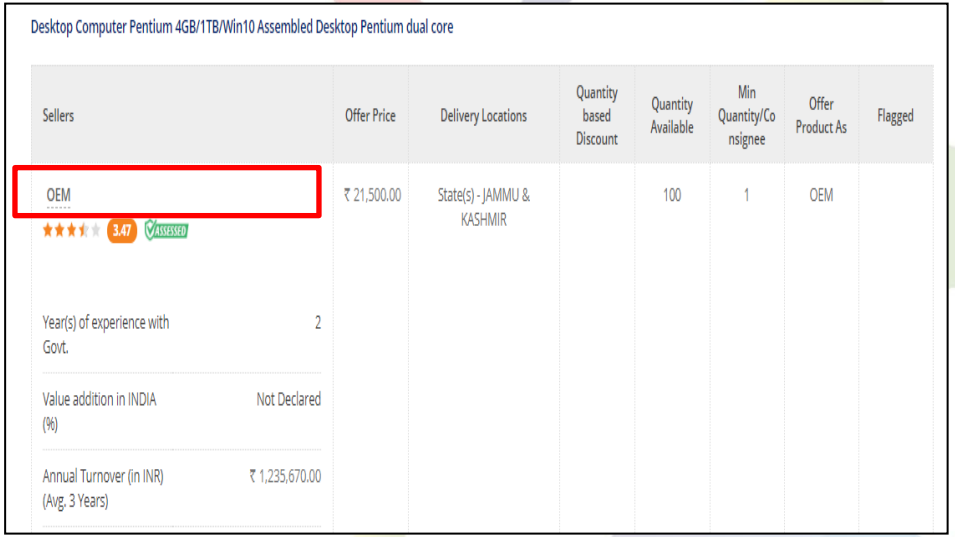

Seller Name Masking

The seller's company name is masked from market till the order is placed.

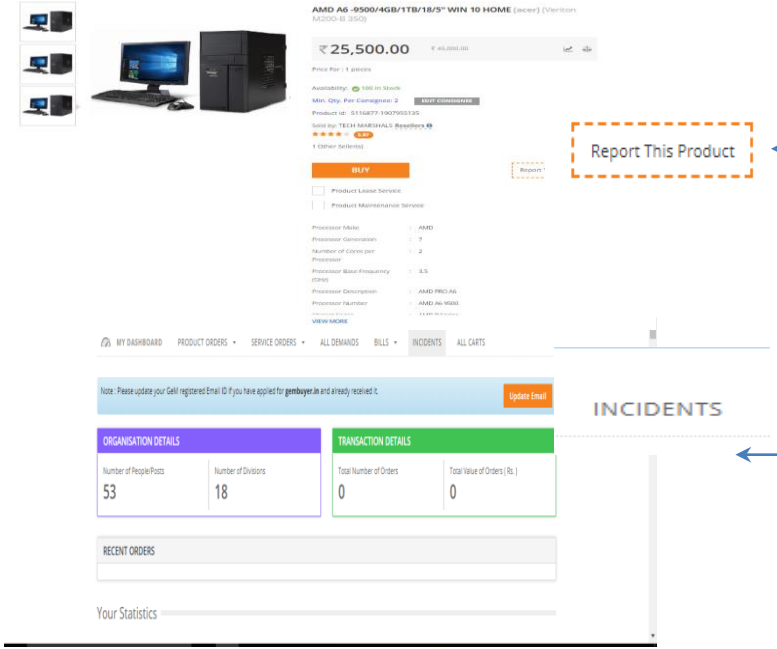

This aims to improve the transparency and reduce communication between buyer and seller to influence and manipulate the pricing.

Integrated Incident Management

Incident Management can be used by Buyers and Sellers to raise issues for any Pre-order placement and/or Post-order placement deviations

Pre-order placement Incident management will deal with the deviations in the Product Catalogue, Seller Registration, Seller Authorization.

Post-order Placement Incident Management will deal with the contract deviations by the Seller.

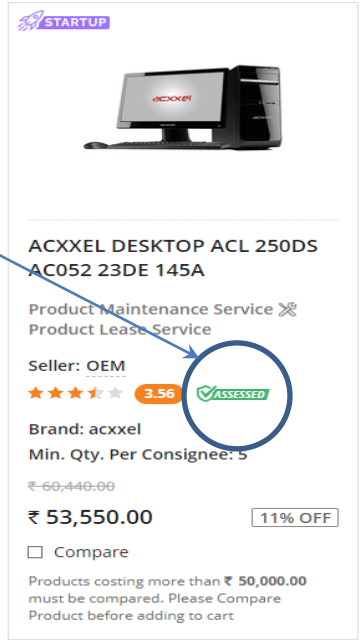

Details of Incident Management can be accessed at https://assets-bg.gem.gov.in/resources/pdf/Incident_Management_Policy_V12.pdf

Vendor Assessment

GeM mandates the OEMs/Sellers (except those exempted) to establish their credentials and fast track their sales by getting pre-assessed by Quality council of India(QCI)

Benefits of getting Vendor Assessment done at GeM:

- Pre-assessed Vendors are tagged as VA in front of their names at GeM.
- Vendor Assessment is a contributing parameter to arrive at the Seller Rating displayed on the GeM Marketplace.
- The Vendor Assessment of the applicant will be based on authentication of vendor profile, financial capacity and technical details of the items to be offered on GeM as per the prescribed format.
- GeM provides Vendor Assessment services by QCI

Details of Vendor Assessment can be accessed at https://assets-bg.gem.gov.in/resources/pdf/user_manual_gem_va.pdf
